Extract from Letter No. 50, dated 23rd March 1886, from the Civil Surgeon, Mysore.

Para 2. I shall feel much obliged if you will also bring forward at the next meeting a proposition of mine, to establish a Dispensary in one of the most distant parts of the Town, say for instance, Iranagere or Old Agrahara : many persons would thereby be saved the long journey to the Hospital each day. The Medical Department would depute an Hospital Assistant to attend there every morning and evening, and the Municipality would have to pay for the rent of the house, cost of medicines and establishment.

I am convinced that, if a Dispensary were opened, a good many persons would resort to it, who, if they had to go as far as the Civil Hospital, would not attend.
